

LAPPING & FINISHING ACCESSORIES

LUBRICATOR & THINNER FOR DIAMOND COMPOUNDS

When polishing with diamond compound, microscopic sized metal cuttings may cause the compound to thicken. Thinner/lubricator is formulated to prevent thickening and assures proper lubrication during polishing. Supplied in a 4 oz plastic bottle with a cap that permits dispensing in small droplets.

Catalog No. DCLT-4

HIGH SPEED MOTOR FOR FLEXIBLE SHAFT TOOLS

DUMORE Series 6 Super Flex

FEATURES:

- 0-60 Hz 1/4 HP
- 115V 3.8 AMPS
